Landscape idea gallery

Thornton Landscape's new Web site – www.thorntonlandscape.com – offers a different way to hunt for landscaping ideas. Visitors can browse images under headings that include arbors and gazebos, gardens, pools, desks, paths and more – and save favorites in a gallery. Then, they can view the gallery with a Thornton expert in Maineville. The site also has an online archive of Thornton Landscape's newsletter, *Ground Cover*, a mini-magazine of seasonal articles, tips and trends. Visitors also can sign up for regular updates from Thornton Landscape, request more information about a project, ask a question to be answered in *Ground Cover* or subscribe by mail.
